SECURITY AWARENESS

Security is the responsibility of everyone in your organisation and this course covers knowledge that members of any organisation should possess regarding both the physical and virtual information assets. a range of security issues such as Threat Assessments, Communication and Risk Analysis.

We highlight to delegates how to implement, operate and follow an organisational security system and how to effectively handle emergency situations. Participants will learn about potential security threats specific to their organisation, including both physical and informational assets, such as classified and protected information.

They will learn to identify potential problems and be prepared to follow a cascade system to ensure all emergency situations are handled in line with policy, procedures and as efficiently as possible.

The SGS Security Awareness Course is designed for all Security personnel, as well as all levels of Administrative, Operational and Managerial roles in the Hotel Industry, Schools, Hospitals or Shopping Centres.
