ADVANCED DRIVING

Having fully qualified, and expertly trained drivers at your disposal goes a long way to providing the extra level of service to your customers. From guests, VIPs, students or staff-road safety, is of paramount importance.

Our Advanced Driver Training Course breeds confidence at the wheel and we show delegates how to control a vehicle in variety of situations, such as emergency lane change, or loss of traction in adverse road conditions and instill the skills that are essential for avoiding accidents.

In addition to developing high level driving skills, we feel it is also important that candidates are familiar with mechanical information and basic checks to ensure that their vehicle is in good performing condition.

This course is perfect for anyone responsible for the safe transportation of personnel across the island – from travel industry providers, school bus drivers, staff transports or even for new drivers looking to enhance their skills.
